# Manganese Violet Blue Undertone

|                                 |                            |                |                  |               |
|---------------------------------|----------------------------|----------------|------------------|---------------|
| <b>Description</b>              | Dry odorless violet powder |                |                  |               |
| <b>INCI Name</b>                | CI 77742                   |                |                  |               |
| <b>Chemical Composition</b>     | <b>By weight</b>           | <b>CAS No.</b> | <b>CI Number</b> | <b>Einecs</b> |
| Manganese violett               | 100 %                      | 10101-66-3     | 77742            | 233-257-4     |
| <b>Resistance</b>               | Light                      |                | 7-8              |               |
|                                 | Temperature                |                | 250 °C max.      |               |
|                                 | Alkalis                    |                | low              |               |
|                                 | Acids                      |                | excellent        |               |
| <b>Density</b>                  | 2,7                        |                |                  |               |
| <b>Watersoluble matter</b>      | 1 % max.                   |                |                  |               |
| <b>Volatile matter</b>          | 1 % max.                   |                |                  |               |
| <b>Sieve residue (45 µm)</b>    | 0,1 % max.                 |                |                  |               |
| <b>Oil Absorption</b>           | 32,1 %                     |                |                  |               |
| <b>Particle size</b>            | 1,48 µm                    |                |                  |               |
| <b>Volatile matter</b>          | 1 % max.                   |                |                  |               |
| <b>Total amount of bacteria</b> | < 100 cfu/g                |                |                  |               |
| <b>Yeast and Mould</b>          | < 100 cfu/g                |                |                  |               |
| <b>Pathogens</b>                | negative                   |                |                  |               |
